

# Fireworks Safety

Fireworks can offer you're really special events and traditions. However, they are not safe in the hands of children. Fireworks cause thousands of burns and eye injuries every year. Please use only fireworks made by the state or the county safety team.

## Do Not:

- Do not allow children to use fireworks or fireworks that are in the ground.
- Do not use commercial fireworks.
- Keep children away from children's events where fireworks are used.

## Always use fireworks responsibly

**Only use fireworks that are made by the state or the county safety team.** These fireworks are safe and fun to use. They are made by the state or the county safety team.

## FACTS

- Fireworks cause an average of 100,000 injuries every year.
- Fireworks cause an average of 100,000 injuries every year.

State of Oregon
